

Ever since she found out she was pregnant, Sloane Taylor has been riding a wave of excitement she never thought possible for the girl who has already led such a charmed life.

As far as she is concerned, her child will be one more step in living her perfect dream. That is, until a ghost from her past suddenly turns up in her small town and threatens her job, her marriage and her carefully cultivated image...

Trying to keep her past separate from her future isn't easy in a small town, but pregnant or not, Sloane is determined to keep two steps ahead of what could be the biggest scandal her family has ever known.

Nuala Reilly is the author of the Fayette Quadrilogy, *Autumn Violets*, *Winter Jasmine*, *Spring Daisies* and *Summer Poppies* as well as other works. She lives with her family in rural Ontario. Visit her website at www.nualareilly.com
